**Accredited as a management system certification body certifying
management systems for medical devices in accordance with:**

SSH EN ISO 13485:2016

Critical fields main	Technical fields	Included product categories in the technical field
1.1 Medical devices non-active:	-Medical devices for general non-active, non-implantable;	• Non-active devices for anesthesia, emergency care and intensive care. • Non-active devices for injection, infusion, transfusion and dialysis. • Non-active orthopedic and rehabilitation devices. • Non-active medical devices with a measuring function. • Non-active ocular devices. • Non-active instruments • Contraceptive medical devices. • Non-active medical devices for disinfection, cleaning, rinsing.

Revision: 0 Issued on: 24.02.2026
Valid until: 23.02.2030

		- Non-active devices for in vitro fertilization (IVF) and assisted reproductive technologies (ART). - Non-active medical devices for ingestion/swallowing.
	Non-active implants;	- Non-active cardiovascular implants. - Non-active orthopedic implants. - Non-active functional implants. - Non-active soft tissue implants
	-Devices for the treatment of the wound;	- Dressings and wound coverings. - Suturing and fixation materials. - Other medical devices for wound care.
	-Devices and accessories non-active dental /	- Non-active dental devices / devices and instruments. - Dental materials. - Dental implants.
	-Devices medical other non-active devices that do not specified above; /	
1.2 Devices medical active non-implantable	Medical devices active general /	- Circulation, infusion and hemopheresis device outside the body. - Respiratory equipment, including chambers hyperbaric for oxygen therapy, anesthesia inhalation. - Devices for stimulation or inhibition. - Active surgical devices. - Active ophthalmic devices. - Active dental devices. - Active devices for disinfection and sterilization. - Active devices for rehabilitation and active prostheses. - Active devices for positioning and patient transport. - Active devices for in vitro fertilization (IVF) and Assisted reproductive technologies (ART) - Software, including software designed for devices medical. - Natural gas supply systems and their parts.

	Imaging devices	• Devices using ionizing radiation • Devices using non-ionizing radiation
	Monitoring devices /	• Devices for monitoring physiological parameters non-vital. • Devices for monitoring physiological parameters vital.
1.4 Medical devices diagnostic in vitro	Reagents and products reagents, calibrators and material control materials for: clinical chemistry, immunochemistry (immunology), hematology / hemostasis / immunohematology, microbiology, immunology infectious, Histology / cytology, genetic tests;	//
	Instruments and programs computer diagnostic In-vitro;	//
	Medical devices diagnostic Other in vitro devices, which are not specified anymore above);	//
A.1.7. Parts or services	Raw material, material unprocessed	Unprocessed metals, plastics, wood, ceramics.

	Components	Electrical components, connectors, raw materials for shaped, processed raw materials and plastics of cast.
	Sub-assemblies	Electronic sub-assemblies, mechanical sub-assemblies, made according to drawings and/or work instructions
	Calibration services	Verification/confirmation services for instruments measuring instruments, tools or testing equipment.
	Services of distribution	Distributors that provide storage and distribution of medical devices, without acting as the 'legal manufacturer' for medical devices.
	Services of maintenance	Electrical or mechanical repair services, services facility cleaning and maintenance services, cleaning and uniform testing of ESD smocks.
	Transport services: trucking service, transport, transport air transport in general.	
	Other services	Consultancy services related to medical devices , packaging services, etc.
